SKILLS

• Teamwork and Communications

Experience in a team, both at work and at school, along with a solid understanding of how to effectively communicate with other team members. Also experienced in interacting with customers when the occasion arises during work.

• Level Design

Comprehensive knowledge of the principles behind making good levels in games, mainly gained both from working on games in the Unity engine and by working with level editing tools in other games.

• Pixel Art

Experience in the creation of pixel art using tools such as LibreSprite for use in the Unity engine.

- **Unity Engine**

An effective understanding of the Unity engine and it's features gained through the creation of multiple games, both in 2D and 3D.

- **Git**

Utilised Git several times during the development of multiple Unity projects, for storing asset sets for future games, along with storing partially or fully complete games.

- **C# Scripting**

Familiar with the use of C# in the Unity Game engine using Visual Studio Code.

WORK EXPERIENCE

Hotel Inn Express, IHG, Linen Porter

September 2025 – Present

Entrusted with stripping rooms, restocking trolleys (and storage rooms when needed) and making sure everything is cleaned up at the end of the day. A job that involves a lot of logistics work to make sure things run smoothly, housekeeping staff finish on time and have the necessary linen, towels, toilet rolls etc.

HOBBIES AND INTERESTS

- **Tabletop Wargames**

An interest in tabletop wargames like Warhammer 40k due to their depth, and because they are a good source of fun and an excuse to get away from the computer.

- **Real Time Strategy/Turn Based Games**

RTS games and Turn Based RPGs have always been enjoyable to play due to their intricate gameplay systems.

- **Reading**

A love of reading books from many different genres, although political books and fantasy books are the most enjoyable.
